## Suggested Combinations

1. Anthem Maxx **–** 2.6 oz rate ($9.06) **with**
    - 3 oz Mesotrione - $1.08
    - 3 oz Clopyralid - $2.00
    - 24 oz Glyphosate - $2.81
    - ½ # Atrazine - $1.63

    **Total: $16.58 per acre**

2. Pyroxasulfone – 1.6 oz rate ($7.80) **with**
    - 3 oz Mesotrione - $1.08
    - 3 oz Clopyralid - $2.00
    - 24 oz Glyphosate - $2.81
    - 1/2# Atrazine - $1.63

    **Total: $15.31 per acre**

3. Enversa – 48 oz rate ($9.40) **with**
    - 3 oz Mesotrione - $1.08
    - 3 oz Clopyralid - $2.00
    - 24 oz Glyphosate - $2.81
    - 1/2# Atrazine - $1.63

    **Total: $16.92 per acre**

4. Dual II Magnum – 24 oz rate ($7.04) **with**
    - 3 oz Mesotrione - $1.08
    - 3 oz Clopyralid - $2.00
    - 24 oz Glyphosate - $2.81
    - 1/2# Atrazine - $1.63

    **Total: $14.56 per acre**

5. Brawl II Atz – 1 Qt rate ($6.13) **with**
    - 3 oz Mesotrione - $1.08
    - 3 oz Clopyralid - $2.00
    - 24 oz Glyphosate - $2.81

    **Total: $12.02 per acre**

6. Staunch II – 1 Qt rate ($10.50) **with**
    - 1 Pint Atrazine - $1.63
    - 24 oz Glyphosate - $2.81

    **Total: $14.94 per acre**

    **Total: $24.19 per acre with Impact**

    **Do NOT add Mesotrione!**

7. Surpass NXT – 1 ½ Pint rate ($7.13) **with**
    - 3 oz Mesotrione - $1.08
    - 3 oz Clopyralid - $2.00
    - 24 oz Glyphosate - $2.81
    - 1/2# Atrazine - $1.63

    **Total: $14.65 per acre**

## Questions:

**What does it cost to switch from Clopyralid to Dicamba DGA or DMA?**

- 8 oz is about the same cost
- 16 oz is around $4 or double
- The cutoff for Dicamba on corn is 5 leaf corn – do NOT exceed the label

**If the weeds and corn are too big for Dicamba and Clopyralid, what can I use?**

- Status at 5 to 6 oz is safe on corn above 5 leafs, up to 6 collars
- Expensive - $21.90 per acre

**Why can't I add Mesotrione to my Staunch/Surestart?**

- High potential for crop injury

**Status is too expensive; what else can I use to control emerged Waterhemp in corn?**

- Tough @ 8 oz rate added to most of these programs is effective, safe, and much cheaper than Status

**Why would I spend the extra money on a product like Impact, versus Mesotrione?**

- Impact is safer than Mesotrione post. Both are HPPD's, but Impact will have less crop response, better grass and broadleaf control, and superior crop safety.
- Staunch with Impact is okay
  - 1 oz Impact - $9.25
  - 1 Qt Bicep or Brawl II Atz - $6.13
  - 24 oz Glyphosate - $2.81
  - 3 oz Clopyralid (optional) - $2.00

**Total: $20.81 per acre**

**What's wrong with Realm Q?**

- It's weak on emerged waterhemp and has very little residual control of waterhemp.
- However,
  - 4 oz Realm Q or Equip
  - 1 Quart Brawl II Atz
  - 8 to 16 oz of Dicamba or 3 oz Stinger
  - 24 oz Glyphosate
  - Is broad spectrum with great residual control
  - Cost? Around $6.25 an acre higher

- Realm Q – 4 oz = $13.60
- Brawl II Atz – 1 Qt = $6.13
- Glyphosate – 24 oz = $2.81
- Clopyralid – 3 oz = $2.00

**Total: $25.54 per acre**

**Substitute Equip: $2.60/oz or $22.94 per acre and save.**
